COOKING THAT BRINGS EVERYONE TOGETHER

Out on the porch or on the balcony, in the yard or on the rooftop, no one can resist the charm of an outdoor dinner party. Chop, experiment, dare, flambé, master or improvise.

Pair prime rib, asparagus, and shrimp flambé with fried rice, any night of the week.

Take your Plancha® with you for a weekend getaway at the cottage and serve up the catch of the day.

Your Plancha® pleases all desires!

PLAYFUL COOKING

From pre-dinner drinks to dessert, and from lunch to late-night snack, the Plancha® Eno brings people together to savour delicious flavours in a playful atmosphere. Cook without harmful smoke so everyone can enjoy the fun!

ANY DAY OF THE YEAR

No matter what day of the week, cooking without dirtying the kitchen and savouring the moments we have with family and friends is priceless! Light just one or even multiple burners when grilling vegetables, searing a beautiful cut of meat or cooking up fresh fish.

Spice up your everyday meals and get everyone involved.

FOR ALL FOODS

The “cooking by contact” technique allows you to cook any type of dish from breakfast to dinner. Food never comes into direct contact with the open flame which seals in flavour and locks in nutrients. Easily switch from cooking fish, to grilling meat, or caramelizing fruits and vegetables. The unique enamel technology prevents any flavour transfer.

OUR USER-FRIENDLY 4-SEASON PLANCHA®

PRECISE COOKING

Set precise temperatures ranging from 300°F to 680°F to caramelize your food just how you like it. Use the knobs to adjust the flame strength until your Plancha® reaches the ideal temperature.

HEAT TO 680°F IN 7 MINUTES

Our burners work great year-round to easily heat your Plancha® Eno up to 680°F so you can sear and caramelize to perfection. It reaches the ideal temperature for first-class outdoor cooking in just a few minutes.

EASY MAINTENANCE

The ultra-smooth multi-layered enamel prevents food from sticking and protects the hotplate against scratches. Simply scrape the surface clean using a stainless-steel scouring ball when moving from one dish to another or for a really deep clean. The high moulded rim prevents messes and makes cooking and cleaning easier.

COOK SAFELY

The flame is completely covered by the griddle and the burners are all equipped with a thermocouple gas safety device.

EAT HEALTHY

No more fat with Plancha®!

Our multi-layered enamel is smooth, non-porous and naturally non-stick. Discover the real flavour of food by cooking on the Plancha® Eno without fat for a taste sensation.

SAVOUR A GOURMET BRUNCH AT HOME

Let's leave brunch to Plancha® Eno this weekend! Create delicious memories with family and friends! Use your Plancha® for cooking perfectly golden hash browns or delightfully crisp bacon. Don't forget the eggs! Fried, sunny-side up or scrambled? It's up to you. Go all out and try Eggs Benedict! Simply place a saucepan on the cast iron hotplate to whip up a quick hollandaise sauce. It's that easy. Serve up a 5-star brunch with ease using your Plancha®!

THE MAILLARD REACTION

Any chef will tell you that mastering the Maillard reaction will give your food that beautifully caramelized colour every time.

Our Plancha® keeps your food crispy on the outside and soft on the inside, enhancing the flavours and keeping everything juicy and tender. You will never worry about drying out or compromising the appeal of your food ever again.

Unlike trying to cook the perfect dish directly on an open flame, with Plancha® Eno, you can thoroughly master any cooking technique.

AN ENAMELLED CAST IRON GRIDDLE TO DISCOVER

**LIFETIME
WARRANTY
PLATE**

A sturdy and durable plate

Enamelled cast iron is solid, so your plate will last your entire life. Eno offers a lifetime warranty for all plates.

SOLID AND DURABLE CAST IRON

Cast iron is the best material for holding heat, then releasing it slowly and evenly.

Plus, once the griddle is hot, these heat-retaining properties allow you to lower the flame, so you'll use less gas.

ENO'S ENAMEL EXPERTISE

At Eno, we use our advanced enamelling expertise to produce the highest quality enamel.

Our multilayer cast iron coating technique creates a smooth finish that's waterproof and rustproof, so it stands up to North America's climate.

FOOD CONTACT

FOOD CONTACT

All our griddles are certified for food contact, so they're **completely safe for users**, something professionals require.

Healthy cooking

Enamelled cast iron protects the flavour and nutritional value of food.

DURABLE AND REPAIRABLE

BE ECO-FRIENDLY

All our products are durable, repairable and can be fully disassembled.

LEADING EXPERTISE

In 2011, ENO received the “Entreprise du Patrimoine Vivant” label for its enameling.

FRENCH MADE

Since 2011, all ENO planchas are now “Certified Made in France” which guarantees 100% French manufacturing.

LIFETIME WARRANTY PLATE

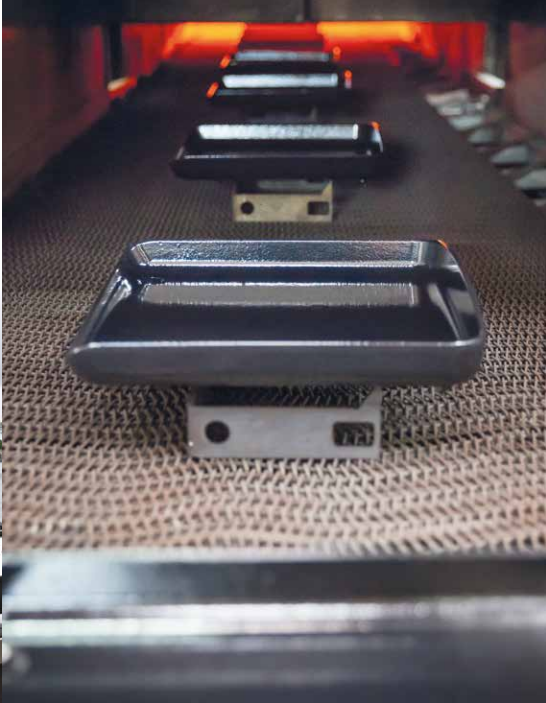

Our Plancha® enamelled plate comes with a lifetime warranty that backs up its quality and durability.*

Modulo Outdoor kitchen

Modular kitchen

Modulo

Extend your home with the outdoor kitchen and cook on your Plancha® like a chef. It's easy to design your custom outdoor kitchen. The modules are chosen separately and work together perfectly.

STAINLESS AND BLACK

Stainless 441 - marine finish.
Black galvanized steel doors and top

A CHOICE OF 2 COLORS to create ambiance

STAINLESS or cargo grey STEEL?
Marine finish 441 stainless steel modules are best for wet areas and year-round use, and cargo grey steel best suits a timeless, modern kitchen.

Our kitchens are designed with 100% outdoor materials. The countertops are highly resistant and easy to maintain so they will look new for many years.

CARGO GREY AND BLACK

Cargo grey and black galvanized steel

KITCHENS ADAPTED to every outdoor space

Modulo is a true outdoor kitchen that features storage, a sink, a countertop, and of course, a Plancha®.

Module to hold a Plancha®

Backsplash with kit

Corner

Ready to connect sink

Storage drawers and shelves

Connection system between modules

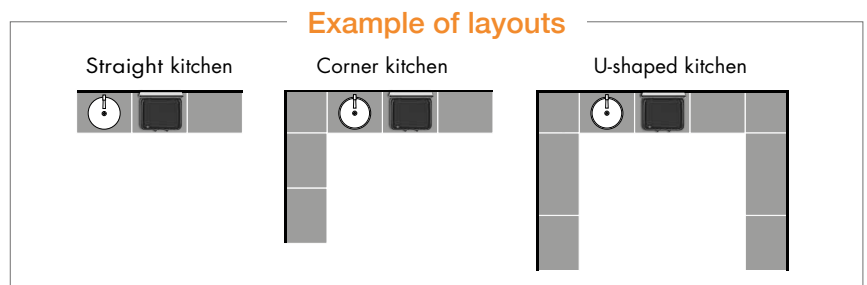

Wheels and adjustable feet

Moving handles

The furniture is delivered flat and is easy to assemble. Each piece of furniture has adjustable feet so you can level it on any terrain. You can also connect the modules and the backsplashes.

MODULAR ELEMENTS for any setup

Set up our modules against a wall or leave them freestanding. Configure them with one or more corners or in a straight line to fit any space. The countertop modules come in a range of widths for different layouts.

Modulo Outdoor kitchen

FUNCTIONAL MODULES
so everything is within reach

Made in France
The furniture is designed and manufactured in our workshops.

Plancha® Module

For easy cooking

The top is lowered so that the Plancha® Eno is at the ideal height and aligns perfectly with the other modules.

Ideal for storing the propane tank.

- All stainless module, marine finish or steel

Worktop Modules

Cooking in a comfortable space

3 possible widths:

- 1-door standard module (optional shelf and drawer).
- Félix 2-door module, with a shelf.
- Félix cart module, with a shelf and a bar for hanging utensils.

Module with Sink

Ready to connect

Add running water to your outdoor kitchen with this module and stop going back and forth to the kitchen.

- Stainless sink
- Drain
- Stopper
- Mixer faucet ready to connect (garden hose)
- EU outlet – to be adapted to NA inlets
- 1 door
